

GJ SAFETY SOLUTIONS

PRACTICAL HEALTH, SAFETY & WELFARE SUPPORT

Creating a positive safety culture

Construction | Business Compliance | CDM | Fire | Audits | Inspections | Consultancy

LOCAL & RESPONSIVE

Gloucester-based support for contractors, SMEs and organisations across Gloucestershire, the South West and beyond.

PRACTICAL & PROPORTIONATE

Clear, usable systems and documentation built around your real work, workforce and risk profile.

FLEXIBLE FOUNDATION PRICING

Transparent starting prices that can be adjusted to suit scale, complexity, travel and the support you need.

From a single RAMS or Construction Phase Plan to retained competent-person support.

WHAT WE DO

Flexible H&S support for construction, engineering and general business

GJ Safety Solutions provides practical, tailored support designed to help clients understand their duties, control risk and maintain professional, usable compliance systems. Services can be used individually, combined into a project package, or built into a retained consultancy arrangement.

Construction & CDM Support

Construction Phase Plans, CDM compliance reviews, pre-construction information support, Principal Contractor support, project arrangements and H&S file close-out.

Audits & Site Inspections

Construction and workplace inspections, welfare audits, compliance audits, action plans, follow-up reviews and management reporting.

Risk Assessments, RAMS & SSOW

Bespoke risk assessments, method statements, RAMS, safe systems of work, COSHH, manual handling, DSE, noise and vibration support where applicable.

Policies & Management Systems

Health & Safety policies, procedures, registers, competence matrices, contractor controls, permit systems and proportionate management arrangements.

Fire, Property, Fleet & Event Safety

Fire risk assessments, landlord/property inspections, vehicle/fleet safety audits, event and firework planning, emergency arrangements and crowd/site safety support.

Incident, Compliance & Specialist Support

Initial incident support, RIDDOR guidance, HSE action tracking, evidence packs, SSIP/CHAS/SMAS/Constructionline support, NRSWA supervisor support and specialist project assistance.

HOW WE WORK

01 REVIEW

Understand the business, project, people, existing arrangements and actual risk.

02 PLAN

Agree proportionate actions, scope, priorities, responsibilities and price.

03 SUPPORT

Create, review and maintain the documents, controls and evidence required.

UK LEGISLATION & HSE-ALIGNED SUPPORT

Support is developed with reference to applicable UK law and guidance, including the Health and Safety at Work etc. Act 1974, Management of Health and Safety at Work Regulations 1999, CDM 2015, COSHH, PUWER, LOLER, Work at Height Regulations 2005, RIDDOR and relevant HSE guidance and Approved Codes of Practice.
